## "FLORIDA"

Join personally conducted party being organized for  
Winter Garden, Florida, to  
go via L. & N. R.R. Plenty  
of good fishing and hunting,  
good hotel accommodations,  
oranges, grape fruit and  
vegetables. **Special Inducements to actual  
Settlers. Investors "Investigate."** For full  
particulars or information, call on or write  
J. C. HOOE, L. & N. Agent, or CHAS. F. SHELTON,  
J. W. JONES, Winter Garden, Fla. Hopkinsville, Ky.

Beautiful Bust and Shoulders  
are possible if you will wear a scientifically  
constructed Bien Jolie Brassiere.  
The dragging weight of an unconfined bust  
so stretches the supporting muscles that  
the contour of the figure is spoiled.

**BIEN JOLIE**  
BRASSIERES

put the bust back where it belongs, prevent the  
full bust from having the appearance of fab-  
ricness, eliminate the danger of dragging muscles  
and confine the flesh of the shoulder giving a  
graceful line to the entire upper body.  
They are the daintiest and most serviceable gar-  
ments imaginable—come in all materials and  
styles: Cross Back, Hook Front, Surplice, Band-  
eau, etc. Boned with "Wulohn," the rustless  
boning—permitting washing without removal.  
Have your dealer show you Bien Jolie Brassieres.  
If not stocked, we will gladly send him, prepaid  
samples to show you.

### Might Be Dead Today.

Garden City, Kas.—In a letter  
from Mrs. James Hammer, of this  
city, she says: "I firmly believe that  
I would not be alive today, if it  
were not for Cardui. I had been a  
sufferer from womanly troubles all  
my life, until I found that great  
remedy. I feel that I can't praise it  
too highly." Are you a woman,  
suffering from some of the troubles,  
to which a woman is peculiarly li-  
able? If so, why not try Cardui, the  
woman's tonic? You can rely on  
Cardui. It is purely vegetable,  
perfectly harmless, and acts gently  
but surely, without bad after-effects.  
"I will help you. Ask your druggist."

## FARM STOCK

### TURNING SILAGE INTO BEEF

It Cannot Be Considered as Substi-  
tute for Other Necessary Materi-  
als in Animal's Ration.

The word "silage" at one time sug-  
gested only brimming milk pails and  
big milk checks. Nowadays it is as  
well a big factor in putting the fin-  
ishing touches on choice sirloin beef.  
Silos are common in the beef feed-  
ing sections of Wisconsin. The main  
reason for feeding silage to beef cat-  
tle is economy of production. It can-  
not be considered as a substitute for  
other necessary materials in the ra-  
tion, according to J. L. Tormey, Col-  
lege of Agriculture, University of Wis-  
consin, who gives a few suggestions  
as to the feeding of silage for beef  
production under local conditions.

"Clover or alfalfa hay should be  
fed along with the silage in the win-  
ter. If clover or alfalfa hay is not  
obtainable, use timothy or mixed hay.  
In addition to the corn silage and hay  
allowance, about three or four pounds  
of cottonseed meal for each 1,000  
pounds of live weight of the animal  
should be fed daily.

"Two-year-old steers weighing about  
1,000 pounds may be started on about  
20 to 25 pounds of silage, 5 to 8 pounds  
of clover or alfalfa hay, and 5 to 6  
pounds of a mixture consisting of six  
parts of corn to one part cottonseed  
meal by weight daily. In a period  
of two weeks the cattle may be  
brought up to full rations, if care-  
fully watched. At this time they will  
eat about 15 to 20 pounds of silage,  
5 to 6 pounds of hay and 12 to 14  
pounds of grain mixture daily.

"As cottonseed meal is rather high  
priced this year, wheat bran or glu-  
ten feed may be used instead with al-  
most as good results and at a saving  
in cost of production."

### OIL ON THE TROUBLED HOGS

Solution of Dipping Problem Solved—  
Much Added to the General Health  
of the Animals.

Oiling hogs when and where the  
hog desires has been found to be the  
proper solution of the dipping prob-  
lem and adds much to the general  
health of the hog. We have presented  
several of these devices for oiling  
hogs to our readers, all of which are

Automatic Hog Oiler.

being manufactured in increasing  
numbers to meet the popular demand  
for something of the kind. Here is  
one that works on a little different  
principle than the others. As the  
hog rotates the barrel of the cylindri-  
cal stem the knobs hit the trip and a  
little oil is released to run down to  
the hog's hide. The slope of and angle  
at which the "post" stands makes it  
possible for the hog to get oil on any  
part of its body—top, bottom, sides or  
ends.—Farming Business.

### BUILDING DOG-PROOF FENCE

Most Economically Constructed by  
Setting Posts Ten Feet Apart—  
Put Barbed Wire First.

A dog-proof fence can be economi-  
cally built in the following manner:  
Posts are set ten to twelve feet apart  
and a barbed wire is first stapled to  
them right on the surface of the  
ground. Three inches above this is  
placed a panel of close-woven wire, 36  
inches high, and about this two  
strands of ordinary barbed wire. Care  
should be taken to see that there are  
no openings between the ground and  
the lowest barbed wire. An enclosure  
made in this manner, into which sheep  
may be turned at night, is inexpensive,  
and dogs will not go through it. Most  
of the damage by dogs is done at  
night.

### New Feed for Stock.

The stock melon, which is a cross  
between citron and watermelon, is  
being fed to stock in the Kansas and  
Oklahoma experiment stations for ex-  
perimental purposes. The fruit has  
somewhat the appearance of a water-  
melon. The flesh is solid and lacks  
sweetness.

### Prevention is Cheapest.

Have little bedding in the pen at  
farrowing. Wait until the pigs get  
large enough to take care of them-  
selves before bedding heavily. Have  
the pen dry and clean and keep it  
thus. Make liberal use of the well-  
known disinfectants. Prevention is  
cheaper than cure.

Buy a brand new  
Buggy

We have  
Good Harness  
for you too

Take her for a drive in one of  
our hand some new Buggies

When you buy a Buggy from us  
you get one that will last. Strong,  
seasoned woods, firmly put together  
go into our buggies. They are care-  
fully painted so as not to crack.

We price our Buggies low.

Our harness is strong, looks good  
and lasts--and priced low.
